

LOST

05 Apr. 2021 @ Greenwich, United Kingdom

I think I dropped my prescription glasses in or around Greenwich park. I was visiting friends in Greenwich park all up the high street and around Charlton area on Monday. I put my glasses in my bag as I had contact lenses in and when I got home I couldn't find them anywhere. I called places I visited and retraced my steps but can't find them. They are big rimmed and slightly purple. The only pair of glasses I have and they were pretty expensive as wearing glasses isn't cheap :((Chloe, 06 Apr. 2021)
